College with Potential for Excellence by UGC and Mentor Institution under UGC PARAMARSH)

Physical Facilities – Other Infrastructure Facilities

- ❖ **E-Content Development cell** trains the faculty to develop mind maps, high quality E-content material with greater creativity using software such as E-draw max, Adobe Captivate and Finalcut Pro. **Video lessons** are prepared by the faculty members and are available in the **SFRC CONNECT** Youtube channel.
- ❖ The interactive **Learning Management System (LMS)** is being utilized to a plausible extent through which the students are being trained to take up online course wares and to engage in academically enriching online discussions.
- ❖ Technology enabled language lab and virtual class rooms are available to enhance the learning of new educational concepts and to facilitate oral communication skills in English.
- ❖ Equipment that needs to be maintained in air- conditioned rooms and other costly equipment for research purpose are separately maintained in the Science Instrumentation Centre (SIC). Consultancy service is effectively carried out and about 55 institutions/industries in and around Tamilnadu are benefitted through SIC
- ❖ **A Centre for Innovation and Development of Entrepreneurship (ACIDE) and Young Women Entrepreneur Development Cell (YWED)** are initiated to encourage the rural women youth to become an efficient entrepreneur through **7** startup programmes like ChemEmpor (Home care products), Kissan Innova (Agricultural Products), Yos Deliza (Nutritive Food Products), Kraftiga (Arts and Crafts), Explora (Designing and App development), Thukhil (Fashion Products) and Belle (Beauty and Personal care products & Herbal Cosmetics)
- ❖ Fire alarms and fire extinguishers are installed in the campus to ensure **safety**.
- ❖ **Paver Block roads** laid within the college campus have functional and aesthetic value.

- ❖ **Green house** maintained in the campus with 90 indoor and medicinal plants under controlled climatic conditions enables the students to do comparative analysis on biochemical aspects of indoor and wild plants.

- ❖ Official and academic notifications are informed to the students through the **Public address system**.

- ❖ **Bus facilities** are available for the safe journey of the students.

- ❖ **Biometric system** available in the campus ensures the punctuality of the teaching and non-teaching faculty members.

- ❖ **Clean drinking water** is made available in the campus through Reverse Osmosis system.

- ❖ Special attention is provided to the physically challenged students. **Ramps** are provided in all the buildings to ensure their easy mobility.

- ❖ **Three hostels with 153 rooms accommodating 350 students provide a very good parental care to the students.**
