Ref.: CST/062/2019 – 2020 February 19, 2020

The Principal
M/s. Standard Fireworks Rajaratnam College for Women
Sivakasi

Dear Madam,

Warm greetings from Clairvoyant Software Technologies (P) Ltd., Madurai.

Sub: Revised Proposal for implementation of Flair v8.5 – ERMS with OBE & CBCS – reg.

I personally thank you for the opportunity given for our flagship product Flair – ERMS to address your institution automation requirement. As per the discussion with you and various faculties of the institution on 11.02.2020, I herewith submit our revised proposal for implementation of above said Flair – ERMS.

Kindly peruse through the attached proposal and catalogue for our entire product. Please do call us for any further clarification or discussion in this regard.

Thanking you
For Clairvoyant Software Technologies (P) Ltd.,

M. Mohamed Rafi
Director

Complete Elucidation in Educational
Resource Management

Flair - Educational Resource Management System.

Flair – ERMS, the three tier web based application integrated with web server, can perform activities that will keep the operations paperless with its rich technicalities and features. It is a hybrid of client server, internet and intranet technologies. *Flair – ERMS*, designed and developed to handle the regular and complex operations of any educational institutions from Schools to Universities. *Flair – ERMS*, comes with essential 34 modules that can manage the operation of a University. The modules in the system can be customized and tuned according to the need of the Client. *Flair – ERMS* provides many options of design, develop and integrate of new modules as required by the user. It has an unique technique of plugging in and plugging out modules as necessitated. *Flair – ERMS* is a tool to synchronize the processes of Academics, Administration and Management in an educational institution. *Flair – ERMS*, workflow system wraps up all the activities of student life cycle in the university, maneuver's the administration processes efficiently in line to the University management with transparency. Web technologies, integrated in *Flair – ERMS* give an opportunity for Students, Staff Members and Parents to track their data and performance both inside and outside the campus. Some futuristic modules of *Flair – ERMS* can also give the leverage for students, Staff and Parents to access the data on the move thru iphone, ipad, ipod and Blackberry equipments. It eases the work of any institution with effective time management, cost efficiency and reducing the dependency. *Flair – ERMS* has enormous capability in reporting to various levels across the institution. Effective cross border reporting enables the institution to function efficiently and thereby providing the management to make well - organized decisions. *Flair – ERMS* follows very stringent security standards handling and protecting the sensitive data. The data in the system are ensured and pampered for its safety and thus giving a safe and infallible security. *Flair – ERMS* gives the user with powerful Graphical User Interface and friendly features for effortless handling of the system. *Flair – ERMS* can be a versatile system for organizing and handling multiple institutions across different geographic locations thus easing the complex operations for the management.

Environment

M/s. Standard Fireworks Rajarathinam College for Women, Sivakasi.

Platform (minimum)

Server Operating system	: Windows 2019 Enterprise Server with required user licenses.
Workstation Operating System	: Windows 8.1 / 10
Technology	: Client Server with Graphical user interface
Application Server	: IIS 7.0 or Higher
Reporting Tool	: Crystal Reports
Back end	: MS-SQL Server 2008 or Higher

Hardware Requirement

Application & Data Server :

Quad Core Processor with at least 32 GB RAM and 1 TB space with RAID and Back up Facility. CD/DVD Writer Drives with network card and sufficient communication ports (Hard Disk Space is exclusive for the software and data).

Back-Up Server:

Quad Core Processor with at least 8 GB MB RAM and 1 TB space with RAID and Back up Facility. CD/DVD Writer Drives with network card and sufficient communication ports (Hard Disk Space is exclusive for the software and data).

Workstations:

Core 2 Duo with minimum of 1GB RAM and 100 MB space with network card
Number of workstations is as decided by the user and is not limited by the software.

Connectivity:

Static IP Address, Leased line support of min 2MBPS with proper firewall protection.

Software to be arranged by client for Implementation:

Server Operating system	: Windows 2019 Enterprise Server with required user licenses.
Workstation Operating System	: Windows 8.1 / 10
Data Base	: MS-SQL Server 2008 or higher with required user licenses
Reporting Tool	: Crystal Report 10.0

Complete Elucidation in Educational
Resource Management

Terms of Business

M/s. Clairvoyant Software Technologies Pvt. Ltd., will study the requirements and submit a requirement document to the client for working on the necessary modules of the product.

Two Software Engineers, who will work on the project of client, will implement and customize the modules mentioned as per need.

At the end of the production, Clairvoyant software technologies will load an executable version of the software at the Customer's place.

Co-ordination in Development

- **PROJECT KICK OFF**
Upon receipt of PD & advance from Customer, Clairvoyant shall arrange a kick off meeting. In this kick off meeting the various activities that need to be done by both the parties would be listed down and agreed upon. Clairvoyant shall list out the project team identified including the project leader. The project Leader will present the System Requirement Study (SRS) schedule and project implementation schedule. These schedules and dates shall be mutually agreed upon during this meeting.
- **APPOINTING THE SINGLE POINT COORDINATOR**
On completing the project kick off, both the parties would have to nominate the single point coordinator for the project. The hierarchy and /or person for approvals and signing of all project related documentation need to be agreed upon by both the parties. If the single point coordinator can sign all the project documents like schedules, acceptance the same needs to be intimated in writing in the form of a letter.
- **REQUIREMENT IDENTIFICATION**
Clairvoyant and Customer shall identify a single point coordinator each from respective organizations responsible for execution and monitoring of the project. The project will commence with a detailed working session to be attended by the functional head of both parties. The purpose of this working session is to prepare and finalize the detailed User Requirement Specification. Upon completion of the User Requirement Specification both parties shall sign acknowledgement of the document called requirement Document, and this Requirement Document shall become a binding portion of the project. In this regard the finalized Requirement Document shall be regarded as the detailed Scope of Work required to be completed by the Clairvoyant.
- **ACCEPTANCE OF REQUIREMENT**
Upon receipt of signed RD document along with payment due, only, Clairvoyant shall start implementing the schedule as provided in RD document. Clairvoyant shall send a progress report on agreed periodicity, if applicable. At this stage Clairvoyant will prepare a detailed implementation schedule containing the mutually agreed dates and both the parties will duly sign this off.

Clairvoyant Software Technologies Private Limited.,
1A/1, D/o Nathan Road, Madurai - 625014, Tamilnadu, India.
Phone : +91 452 2643803 / 904 | Fax : +91 452 4347902 | Mail ID : rafi@cs technologies.biz

**THE STANDARD FIREWORKS RAJARATNAM COLLEGE FOR WOMEN (AUTONOMOUS),
SIVAKASI – 626 123.**

(Affiliated to Madurai Kamaraj University, Re-accredited with “A” Grade by NAAC,
College with Potential for Excellence by UGC and Mentor Institution under UGC PARAMARSH)

Clairvoyant
software technologies pvt. ltd.

Complete Elucidation in Educational Resource Management

- **DESIGN**
The design process of the complete project will be taken up in two stages by Clairvoyant, which has been listed in the project schedule section of this document. The design document will undergo an internal review by the project team. After the approval of the design document Clairvoyant would advice the Customer to collect the necessary data to create the master data entries.
- **PHASE WISE DEVELOPEMENT**
The development of the customization identified for various modules shall be done phase wise which will be in line with the milestones agreed upon while preparing the detailed implementation schedule. Against each stage of development completion and delivery thereof, a payment will be released to Clairvoyant as per the payment terms and conditions specified in this proposal. The deliverables will be mentioned in the deliverables section. Upon completion of development and testing, Clairvoyant shall confirm Customer readiness to implement the Software, Clairvoyant shall deploy its Project Leader and Team to Customer location for implementation. It is also initiated by Clairvoyant software technologies to use only its own manpower resources for the entire project development and declines to utilize the services of the qualified manpower resources supplied by **M/s. Standard Fireworks Rajarathinam College for Women**, in the light of efficiency of development and improved communication.
- **USER ACCEPTANCE**
If no further complaints have been advised in writing within 30 working days of the Provisional Acceptance being approved, then it will be deemed that the system has been accepted in full in accordance with the terms and conditions of the requirement document.
- **Training**
After provisional acceptance has been approved Clairvoyant will train the Trainer nominated by the customer on data entry methods and utilizing the system Trainer program. During this training program it is strongly advised that Customer identify a super user or nominate the single point coordinator or a team to get trained so that they would be able to train the end users at a later stage. It is mandatory that Customer should assemble all the key people identified by them from various locations to attend the training program. Clairvoyant can provide the training after training period at additional cost, which can be mutually discussed and agreed upon.
- **WARRANTY**
The warranty period shall be 12 Months from the date of purchase order. During the above warranty period, M/s. Clairvoyant Software Technologies is responsible for successful running of the modules by the user at free of cost and shall attend to any complaints / service calls within 24 hrs and rectify the complaint / implement the modifications required.

During the 12 month free service period Clairvoyant Software technologies will attend the complaints arising for the developed "Flair v8.5 – Educational Resource Management System" only. The complaint has to be registered earliest possible to enable Clairvoyant Software Technologies to attend it very in short duration.

During the entire period Clairvoyant software technologies will not by any means engage into any kind of software or hardware installation, maintenance or upgrades.
Clairvoyant Software Technologies will not do any alterations in the software that will affect the data structure after 30 days of installation. However this can be done on mutual agreement with client on the quoting the cost incurred.

Annexure - B

Proposal for Cloud Server

Objective

To configure, install and maintain a Cloud server for M/s. Standard Fireworks Rajarathinam College for Women, Sivakasi, as per standards and norms from the college.

Requirements:

- Sub Domain Registration
- Cloud Server
- Database Connectivity
- Server Operating System
- SQL Server user licences

Cost:

S.No.	Particulars	Amount
1.	Cloud Server with our own configuration with Maximum of 10GB of Data Transfer per month.	Rs.1,80,000.00

Co-location Features

- Host your website on the same server
- Choose Space as per your need
- Direct Connectivity to Flair – ERMS Server at the Institution
- 99.9% Downtime for server
- Highly secured with high speed connectivity
- Database Connectivity extra as required by the client
- Zero cost on maintenance of server, Firewall, Manpower & Electricity.
- With Software licences required for Flair - ERMS

About Company

Clairvoyant Software Technologies Pvt. Ltd., India, a name renowned in educational industry for providing solutions thru its product Flair – Educational Resource Management System. The company has more than a decade of experience in developing and giving solution for the Universities across the world. The company was formed in 1999 with its head quarters in India, with motive of bestowing answer to the modern day's education system thru a comprehensive software product for levels of educational institutions. It has been successful since then serving the Education segment with its innovations, Perseverance with demands of education system and quality performance of the Flair - ERMS product.

Flair - ERMS Product

Flair – Educational Resource Management System is the next generation university management system that supports education for life at the educational institutions across the world with its features and functionalities. Flair – ERMS has been developed over 16 years and still being developed to keep up with the demands of modern day's education system across the globe.

- Complete Online Solution for Students, Parents, Faculty members, Administrators and Alumni
- Student Portal and Faculty Portal makes Learning and Registration seamlessly easy with greater transparency
- Dashboards and Online Reporting All users get a dashboard view alerts and access to reports.
- Modular system that is scalable & expandable as the University grows.
- Incorporates latest Education Methodologies
- End to End Solution
- 3- Tier Architecture (web server integrated)
- Completely integrated
- Modular / Block Based
- Plug and Play Modules
- Workflow bound system
- Client Specific customization
- Able to replace legacy systems
- Flexible Reporting structure - Multidimensional, Regularized, Automated
- Highly secure

THE STANDARD FIREWORKS RAJARATNAM COLLEGE FOR WOMEN (AUTONOMOUS), SIVAKASI – 626 123.

(Affiliated to Madurai Kamaraj University, Re-accredited with “A” Grade by NAAC,
College with Potential for Excellence by UGC and Mentor Institution under UGC PARAMARSH)

Outcome based Education (OBE)

Flair - Educational Resource Management System with Outcome Based Education, for Universities, Colleges, Schools and Vocational Institutes, to maintain and improve Quality of Education using OBE (Outcome Based Education) Methodology. Flair - ERMS supports Bloom's Taxonomy and OBE Accreditation Requirements of Washington Accord / ABET.

With Flair - ERMS OBE, the new Bloom's Taxonomy Pyramid can be made dynamic as per requirements of an Institution and can be applied to any programs.

Bloom's Taxonomy Pyramid

Outcome based education (OBE) is a process that involves the restructuring of curriculum, assessment and reporting practices in education to reflect the achievement of high order learning and mastery, rather than the accumulation of course credits. Thus the primary aim of OBE is to facilitate desired changes within the learners, by increasing knowledge, developing skills and/or positively influencing attitudes, values and judgment. OBE embodies the idea that the best way to learn is to first determine what needs to be achieved. Once the end goal (product or outcome) has been determined, the strategies, processes, techniques and other ways and means can be put into place to achieve the goal. In this context, OBE is defined as a comprehensive approach to organizing and operating an education system that is focused in and defined by the successful demonstrations of learning sought from each student. Clairvoyant Software Technologies Pvt. Ltd., has come out with Flair - ERMS OBE software for an efficient data collection and management of all academic courses offered at an Educational Institution.

THE STANDARD FIREWORKS RAJARATNAM COLLEGE FOR WOMEN (AUTONOMOUS), SIVAKASI – 626 123.

(Affiliated to Madurai Kamaraj University, Re-accredited with “A” Grade by NAAC,
College with Potential for Excellence by UGC and Mentor Institution under UGC PARAMARSH)

While offering an outcome based education (OBE), Flair - ERMS has been developed for efficient data collection and management of all academic courses offered at the University, this invention is also an effective tool for any accreditation. The OBE is a process of restructuring curriculum, assessment and reporting practices in education. The end goal puts in place a comprehensive approach that is defined by successful learning pursuits of individual students. Flair - ERMS OBE is capable of browsing online with mobile apps, and also allows students or parents to track or monitor their academic performance.

Outcome Based Education Methodology is instrumental to

- Maintain standard of Education
- Fulfill requirements of Curriculum
- Accreditation requirements (Washington Accord, ABET)
- Satisfy needs of Industry
- Continuously Improve and evolve Educational Programs
- Ensure Students are with multi tasking capability

Mapping of course outcomes can be a tedious task for the staff and management. OBE and Bloom's Taxonomy compliant Flair - ERMS outcome based education software maps all levels of outcomes. This will give a level of control that is unprecedented and completely changes the way faculty look at workflows and tasks related to OBE.

With Flair - ERMS in institution, it is no more OBE a tedious and strenuous affair. Track every detail and map every question to the outcomes with simple steps.

- Program Outcome (PO) - Course mapping
- Course Outcome (CO) - Program Outcome (PO) mapping
- Assessments - CO mapping
- Curriculum - CO mapping
- Questions - CO mapping

Flair - ERMS has a built-in automated processes and workflows, assignment tracking system, document management, reporting & efficient communication methods. Configure and customize assessment rules that are consistent and standardized. Manage the assessments and online assignment process from initiation to completion, automation of tasks, storing of histories, management of student profiles and due dates.

Creation of rubrics for assessments made simple and easy to do and it can be configured in the system and updated automatically

- Configurable Rubrics (Assessment Methods)
- Easy notifications to students
- Online & Offline Assessments
- Create unlimited assessment patterns
- Assessments mapping with Question Paper
- Bloom's Taxonomy domain mapping with questions

**THE STANDARD FIREWORKS RAJARATNAM COLLEGE FOR WOMEN (AUTONOMOUS),
SIVAKASI – 626 123.**

(Affiliated to Madurai Kamaraj University, Re-accredited with “A” Grade by NAAC,
College with Potential for Excellence by UGC and Mentor Institution under UGC PARAMARSH)

The reports that are being generated can be analyzed and compared with other programs for improvement. The system also notifies the students on their current status and guides them to take necessary actions to improve their grades.

- Absolute Grading support
- Relative Grading support
- Curve Grading Support
- Auto checks threshold values
- Automatic report generation
- Attainment Level in PO & CO

The compliance with OBE and Bloom's taxonomy is one of the major requirement for any accreditation body, be it Washington Accord, LIMA accord, or Bologna process, NAAC etc. Any accreditation body like ABET, NBA, NAAC etc check multiple criteria before giving accreditation to a particular program. The CQI or continuous quality improvement process and the features in Flair - ERMS helps easy evaluations with Corrective Activity Requests (CAR). CQI and CAR helps in streamlining the students performance and achieve the desired attainment levels in a Course or Program.

Flair - ERMS supports and monitors

- PEO-PO mapping
- Complies with NBA, NAAC and ABET
- Continuous Quality Improvement or CQI tools
- Auto Alerts and Notifications to faculties and students at various stages.
- Minimizing time in data recording, analyzing and reporting with a database and data backup system
- Platform to monitor and communicate student's performance thru live dashboard
- Continuous and instant tracking for each assessment
- Effective implementation of continuous quality improvement (CQI)
- Automatically generate CQI action – immediate CQI
- Automated monitoring of performance outcome
- Achievement – student and cohort
- Program Educational Outcomes (PEO) for the performance of the Alumni students.
