Annual Report on Professional development programme/ Administrative training
programme organized by the institution for Teaching and Non-teaching staff members

2019-2020

Professional development of faculty members has gained the attention of educational institutions as it has direct impact on the teaching-learning effectiveness. Programmes for upgrading the performance help the teaching fraternity to adapt to the changing environment. Institutional development is achieved by conducting training sessions / workshops and seminars for the teaching and non-teaching faculty of the institution. Hence it is mandatory to train staff on technology, research and administration by conducting many workshops/ seminars at regular intervals of time to update their knowledge.

In order to keep the teaching and non-teaching faculty members in line with innovations and technology, SFRC organized Faculty Development Programmes, Webinars, Seminars and Workshops on various need based topics regularly. Participating in these events helped the faculty members to create an effective learning environment, improve teaching-learning situations, keep updated on modern instructional devices and inspire them to become better teachers in the modern world. Apart from these Faculty Development Programmes, Workshops were conducted for non-teaching staff members at regular intervals of time for enhancing employee motivation and development. In the academic year, 2019-2020, the institution has organised 35 training/ administrative programmes out of which three are for the non-teaching faculty members.
