BORE WELL/OPEN WELL RECHARGE

The Institution has one Open well and four Bore Wells which are properly maintained and used. The Open Well receives water from the Rain Water Harvesting Plants and it is properly sealed with a mesh wire outer cover. The four Bore Wells located in the MCA Block, Administrative block, behind and inside the auditorium supplies the necessary water needed.

Open well

- An open well with a well-protected wall and a netted outer cover is located in the campus.
- Size of the well is 42feet X 45 feet X 55 feet
- Rainwater collected from the Administrative block, IT block, Computer block, M.C.A. block and Indoor stadium are diverted into the sump and finally into the well.
