D.O.No.F.14-5/2015(CPP-II) 2nd August 2019

Respected Sir/Madam,

Everyone including the Higher Educational Institutions should immensely endeavor to contribute for the environmental protection which is inevitable for the survival of world life.

Environmental protection is the most effective way to overcome the problems caused due to pollution and environmental degradations and this is possible mainly by planting trees in maximum number and by conserving the water resources apart from controlling the factors which cause pollution and environmental degradations.

It is hoped that your university and affiliated colleges must have made enormous efforts in this direction in the past. The UGC vide its letter dated 31 March, 2015 had earlier also appealed to the Universities to carry out special plantation drives based on the concept of 'One Student One Tree'

It is well known that trees play a pivotal role in water conservation and for the maintenance of pollution free environment. Carrying forward the concept of 'One Student One Tree', this year also, you are requested to motivate the students of your University and affiliated colleges to plant and nurture at least one tree during their stay in the campus. Besides this, students may be motivated to save water. Hon'ble Minister of Human Resource Development, Dr. Ramesh Pokhriyal 'Nishank' has appealed for tree plantation and conservation of water resources as a mission through a video message which is available at https://www.ugc.ac.in/video/VM_on_Environment.mp4.

It is also urged to send a report along with pictures on this special drive for water conservation and tree plantation to environmentpreservation77@gmail.com.

With kind regards,

Yours sincerely,

(Rajnish Jain)

Ref: *D.O.No.F.14-5/2015 (CPP-II), dated 02.08.2019.*

Greetings! According to the initiative launched by HRD Minister, our College focuses the minds of young learners towards environmental protection and pollution free environment by conducting a plantation drive 'One Student One tree' programme. The initiative focuses to increase green cover in the college campus, nearby areas and made the students to involve in nurturing trees for the preservation of environment, to reduce the emission of carbon and to mitigate the effects of global climate change. Herewith we are submitting the activities undertaken to implement the above said programme.

- Organized tree plantation programme inside the college campus to increase the green cover. About 1000 saplings were contributed by the students.
- Organized tree plantation programme in the adopted villages namely Sithurajapuram, Athikulam, Naranapuram and Kattalaipatti by planting more than 100 tree saplings to make a pollution free green environment.
- Tree saplings were also contributed to St. Paul Boy's Home, Krishnaperi and veterinary hospital, Sivakasi.
